RACING EXPERIENCES (2) – LAGUNA SECA

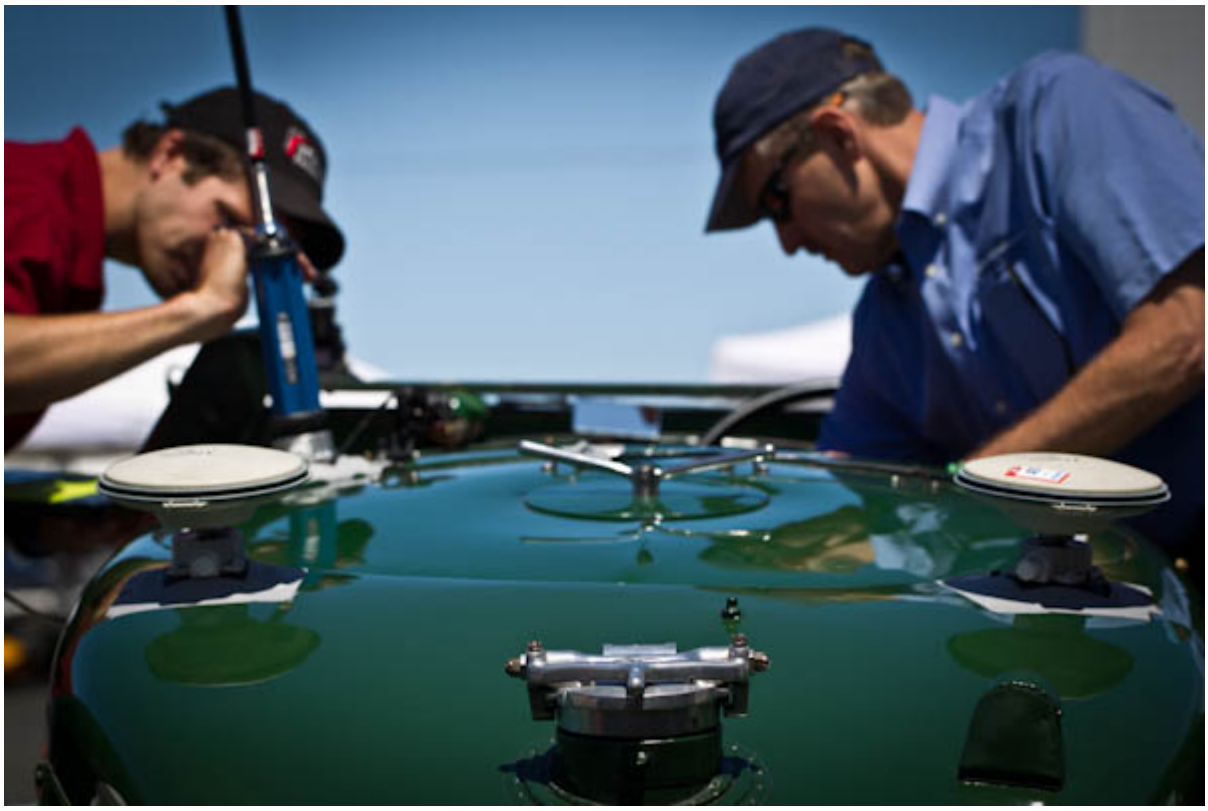

A fascinating week for the Revs Program at Laguna Seca Racetrack.

Coordinated effort to document the driving experience – historic cars – and the community who cherish automotive heritage.

Raising the profile of automotive studies, taking seriously this vital iconic part of the contemporary past.

As Mark Gessler – HVA (Historic Vehicle Association) and FIVA (Fédeartion Internationale des Véhicules Anciens) – puts it – from hobby to history

Preparing the Eddie Hall Bentley – car instrumented to record performance variables

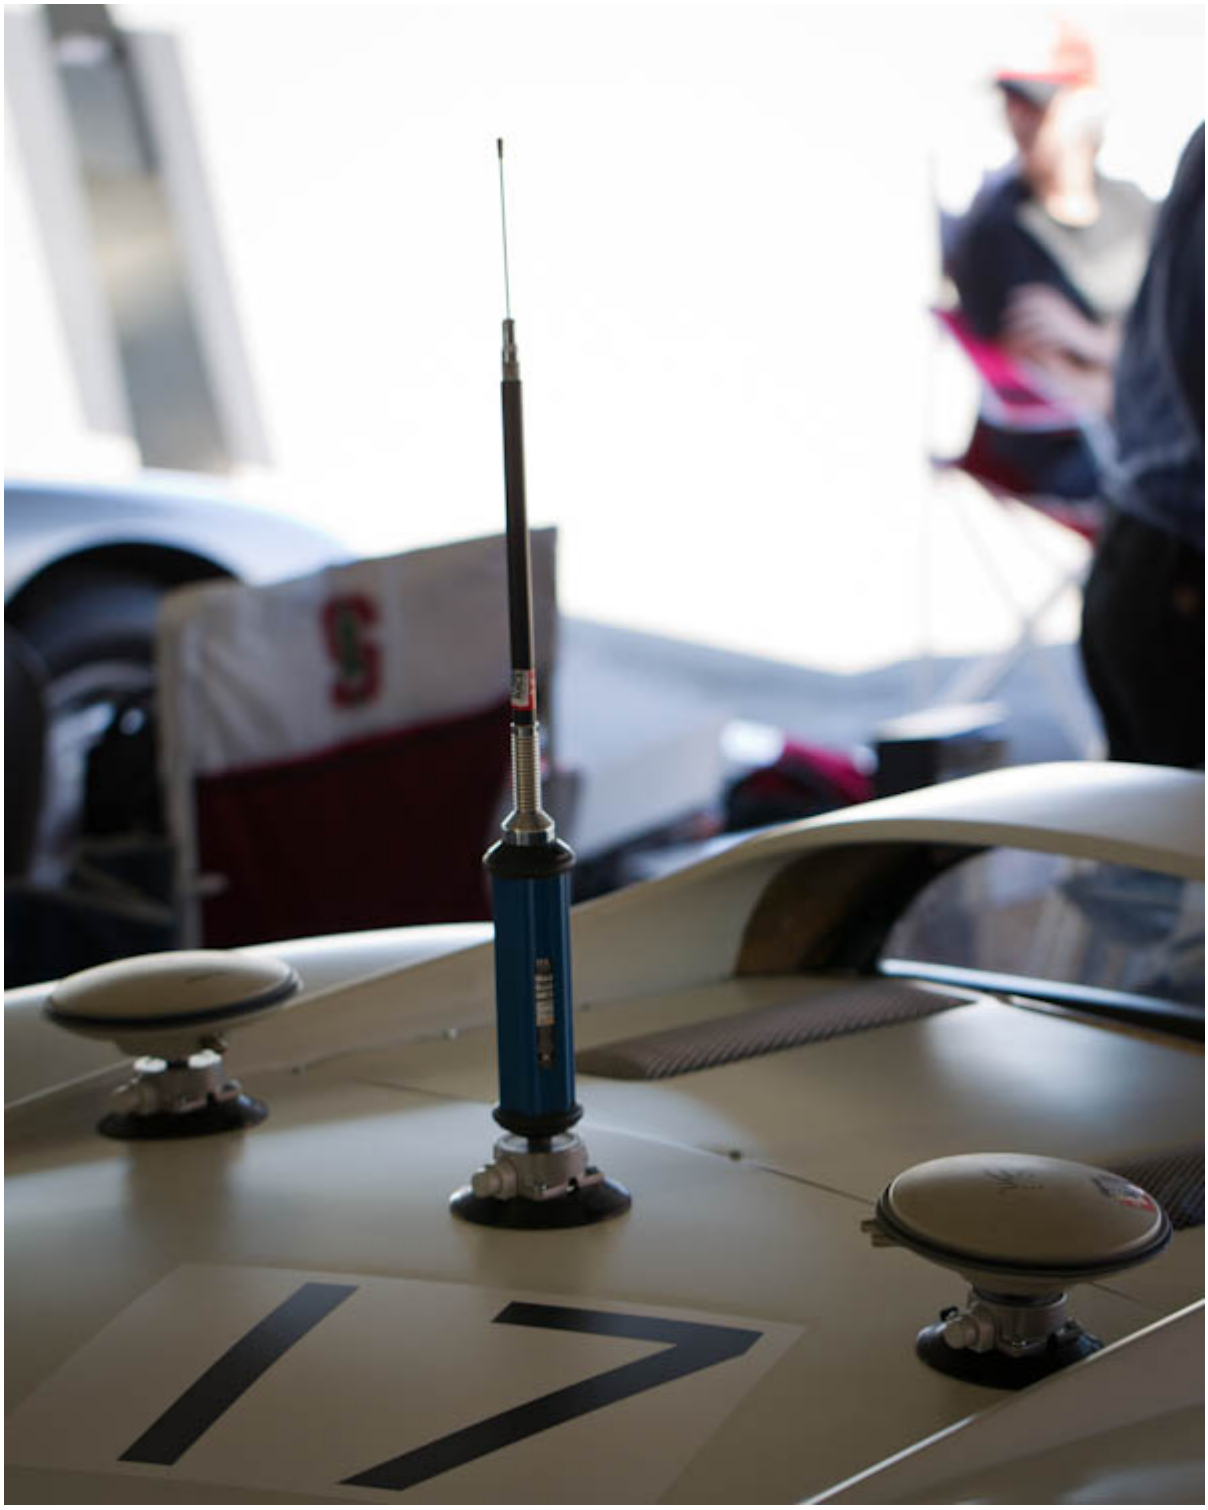

Murray Smith at the wheel – wired up to track his actions and responses

The Bentley on the track
